

## INDEX

- d'Alembert's test, 61  
 Approximations, 64  
 Arithmetic mean, 54, 55  
 — progression, 50
- Binomial probability-distribution, 45  
 — series, 62  
 — theorem, 37
- Coefficient of variation, 79  
 Coincident roots, 18  
 Combinations, 29  
 Convergence, 59 *et seq.*  
 Correlation, 83  
 Cubic equations, 22, 23, 28  
 Cyclic symmetry, 24
- Dependent variable, 7  
 Differences, method of, 52  
 Direct proportion, 8  
 Divergence, 59 *et seq.*
- $e$ , 2, 64  
 Equal roots, 18  
 Equating of coefficients, 24  
 Equations, formation of, 19  
 — — from graphs, 8–13  
 Equations, involving surds, 3  
 — quadratic, 18  
 Error in approximation, 64  
 Exponential series, 64  
 — theorem, 64
- Factors, 23  
 Finite differences, 52, 53  
 — series, 50  
 Frequency distributions, 74
- Geometric mean, 54, 55  
 — progression, 50, 60  
 Gradient, 7  
 Greatest term of a series, 39, 65  
 Gregory's series, 66
- Hyperbola, 10  
 Hyperbolic functions, 66
- Identities, 24  
 Imaginary roots, 18  
 Independent variable, 7
- Index laws, 1  
 Infinity, 60  
 Inverse functions, 2  
 — proportion, 10  
 — square law, 12
- Joint variation, 14
- Least squares, method of, 81  
 Limit, idea of a, 60  
 Linear law, 9, 14  
 — regression, 80  
 Logarithmic graphs, 13  
 — series, 65  
 Logarithms, 1  
 — calculation of, 66  
 — change of base, 2  
 — invention, 59
- Machin's formula for  $\pi$ , 66  
 Maxima and minima, 19, 55  
 Mean, 76  
 Mean square deviation, 78  
 Median, 76  
 Mode, 75
- Normal curve of errors, 75
- $\pi$ , 66  
 Parabola, 11  
 Partial fractions, 25  
 Pascal's triangle, 37  
 Permutations, 29  
 Principle of indifference, 41  
 Probability, 41  
 Probable error, 80  
 Progressions, 50  
 Proportion, direct, 8  
 — inverse, 10
- Quadratic equations, 18  
 — — graphical solution, 22  
 Quartile, 76  
 — deviation, 76
- Ratio of successive terms of a series,  
 39  
 Real roots, 18, 28  
 Regression, 80  
 Remainder theorem, 23  
 Roots of quadratic equations, 18

## I02

Series, finite, 50  
— binomial, 62  
— exponential, 64  
— geometric, 50, 60  
— Gregory's, 66  
— hyperbolic, 66  
— infinite, 59  
— logarithmic, 65  
— trigonometric, 66, 67  
 $\Sigma$  notation, 24  
Skewness, 75  
Spearman's rule, 93  
Standard deviation, 76  
— error, 80

## INDEX

Statistics, 73  
Straight line graphs, 9  
Summation of series, 50–3  
Surds, 3  
Symmetric functions of roots, 18  
Symmetry, 24  
  
Trigonometrical functions, 67  
  
Variance, 78  
Variation, 7  
— as the square, 11  
— as any power, 13
