### Part I: Skills in nursing  

1  

**The Australian healthcare context**  

*Rhonda Wilson*

- Introduction  
  4  
- Australian healthcare models  
  4  
- Nursing within the Australian healthcare context  
  11  
- Preparing for clinical placement  
  11  
- Summary  
  20  
- Review questions  
  22  
- Research topic  
  22  
- Further reading  
  22  
- References  
  23

2  

**Clinical skills and nursing care**  

*Jacqueline Bloomfield and Anne Pegram*

- Introduction  
  26  
- Clinical skills in nursing  
  26  
- Components of clinical skills  
  29  
- Evidence-based practice in the context of clinical skills  
  31  
- The role of clinical skills in the context of patient care  
  32  
- Promoting the development of clinical skills  
  34  
- Assessment of clinical skills  
  37  
- Summary  
  39  
- Review questions  
  40  
- Research topic  
  40  
- Further reading  
  40  
- References  
  41
### 3 An introduction to evidence-based practice in nursing

*Alan Pearson*

- Introduction
- Clinical decision-making in nursing
- Evidence-based nursing
- Evidence for nursing practice
- Developing answerable clinical questions
- Finding the evidence
- Evaluating the evidence
- Implementing evidence in practice
- Summary
- Review questions
- Research topics
- Further reading
- References

### Part II: Communication and assessment

#### 4 Interpersonal communication skills

*Jane Stein-Parbury*

- Introduction
- The dynamics of interpersonal communication
- The nursing practice context of interpersonal communication
- The skills of interpersonal communication
- Communicating with patients
- Communicating with colleagues
- Written communication
- Summary
- Review questions
- Research topic
- Further reading
- References

#### 5 Patient assessment

*Suzanne Robertson-Malt, Deborah Norton-Westwood and Alan Pearson*

- Introduction
- Defining assessment
- Medical assessment and nursing assessment
- Physical assessment
- What are vital signs and why are they important?
- Summary
- Review questions
- Research topics
## Part III: Fundamental skills for patient care

### 6 Infection prevention and control

**Peta-Anne Zimmerman, Thea van de Mortel, Marilyn Cruickshank and Ramon Z. Shaban**

9 Nutrition
Jacqueline Bloomfield and Anne Pegram

Introduction 218
Nutrition 218
Healthy eating 225
Energy 226
What is a healthy diet? 228
Social aspects of eating 229
Altered nutrition 230
Nutritional screening and assessment 232
Nursing care and nutrition 238
Working as part of the multidisciplinary team 240
Summary 242
Review questions 243
Research topic 244
Further reading 244
References 244

10 Medication administration
Richard Lakeman and Elicia Kunst

Introduction 248
Legal and professional issues 248
Medication calculations 257
Administration of medications 262
Summary 276
Review questions 277
Research topic 277
Further reading 277
References 278

11 Promoting comfort
Rhonda Wilson

Introduction 280
Nursing care promotes comfort 280
Assessing pain and discomfort 282
## Interventions to promote comfort and reduce pain within an interdisciplinary team

**Pharmaceutical pain management** 285
**Non-pharmacological pain management** 287
**The discomfort of nausea and vomiting** 293
**Constipation discomfort** 294
**Promoting a comfortable environment** 295
**Future directions for severe and persistent pain management** 298
**Summary** 304
**Review questions** 306
**Research topic** 306
**Further reading** 306
**References** 307

## Mental health

*Nicholas Procter and Monika Ferguson*

**Introduction** 310
**Common mental illnesses** 311
**Developing a therapeutic relationship** 314
**Screening mental state assessment** 316
**The four Ps** 321
**Suicidal inquiry** 322
**Homicidal inquiry** 323
**Electroconvulsive therapy** 325
**Summary** 327
**Review questions** 328
**Research topic** 329
**Further reading** 329
**References** 329

## Respiratory skills

*Benjamin Hay and Julie Dally*

**Introduction** 332
**Promoting respiratory function and oxygenation** 332
**Oxygen therapy** 338
**Managing a chest tube** 343
**Suction** 349
**Tracheostomies** 352
**Summary** 356
**Review questions** 358
**Research topic** 358
**Further reading** 358
**References** 359
## 14 Perioperative care

*Zaneta Smith and Brigid Gillespie*

- Introduction 362
- Asepsis in the perioperative environment 362
- Perioperative attire and personal protective equipment 368
- Surgical scrubbing and hand-rubbing 371
- Surgical gowning and gloving 374
- Surgical skin preparation and draping 379
- Summary 381
- Review questions 382
- Research topic 383
- Further reading 383
- References 383

## 15 Blood transfusion

*Erica Wood, Kylie Rushford, Christine Michael and Terri Dunstan*

- Introduction 388
- Transfusion decision-making 389
- Patient identification and sample labelling 391
- Safe blood storage and handling 393
- Compatibility of blood components 395
- Blood administration and patient monitoring 396
- Transfusion complications 401
- Summary 406
- Review questions 407
- Research topics 407
- Further reading 408
- References 408

## 16 Wound management

*William McGuiness*

- Introduction 411
- The four phases of wound healing 411
- Facilitating wound healing 413
- Essential wound assessments 415
- Planning wound care 421
- Setting expectations 425
- Summary 428
- Review questions 430
- Research topic 430
- Further reading 431
- References 431
# Part IV: Skills required to care for patients with specific needs

## 17 Care of the deteriorating and unconscious patient

*David Jackson and Liz Mackey*
