.....
Every effort has been made in preparing this book to provide accurate and up-to-date information which is in accord with accepted standards and practice at the time of publication. Although case histories are drawn from actual cases, every effort has been made to disguise the identities of the individuals involved. Nevertheless, the authors, editors and publishers can make no warranties that the information contained herein is totally free from error, not least because clinical standards are constantly changing through research and regulation. The authors, editors and publishers therefore disclaim all liability for direct or consequential damages resulting from the use of material contained in this book. Readers are strongly advised to pay careful attention to information provided by the manufacturer of any drugs or equipment that they plan to use.

Contents

List of Contributors vi

1	Introduction 1	9	Lifestyle Modifications – Alcohol, Caffeine, Smoking, Drugs Before ART 76
	Gab Kovacs and Robert J. Norman		Vicki Nisenblat and Melanie Johnson
2	The Effects of Nutrition and Micronutrients on Reproductive Success 3	10	Environmental Factors to Consider Prior to Conception 89
