

## Contents

|  |     |
|--|-----|
| List of Participants   | vi  |
| Preface  | ix  |
| José Burillo, Sean Cleary and Claas E. Röver<br>Obstructions for subgroups of Thompson's group $V$ | 1   |
| Ioannis Emmanouil<br>Groups of homological dimension one   | 5   |
| Daniel S. Farley and Bruce Hughes<br>Braided diagram groups and local similarity groups            | 15  |
| Ross Geoghegan and Marco Varisco<br>On Thompson's group $T$ and algebraic $K$ -theory              | 34  |
| Robert P. Kropholler<br>Special cube complexes (based on lectures of Piotr Przytycki)              | 46  |
| Yash Lodha<br>A hyperbolic group with a finitely presented subgroup<br>that is not of type $FP_3$  | 67  |
| Jon McCammond<br>The structure of Euclidean Artin groups   | 82  |
| Volodymyr Nekrashevych<br>Finitely presented groups associated with expanding maps                 | 115 |
| Olympia Talelli<br>On characteristic modules of groups   | 172 |
| Mark Ullmann<br>Controlled algebra for simplicial rings and algebraic $K$ -theory                  | 182 |
