Chapter 6  Wound and skin care  
Ibi Patane  
Introduction  
Skin assessment  
Skin care of the infant  
Wound care in paediatrics  
Pressure injury risk and prevention  
Additional risks to skin integrity in hospitalised children  
Common skin conditions in paediatrics  
Summary  
Connecting with competencies  
Review questions  
Research topic  
Further reading  
References  

Chapter 7  Administration of medication  
Elizabeth Forster, Dianne Maher and Ibi Patane  
Introduction  
Safety considerations in paediatric medication administration  
Calculating medication doses in paediatric nursing  
Topical medication administration  
Rectal medications or suppositories  
Parenteral medications  
Summary  
Review questions  
Research topic  
Further reading  
References  

Chapter 8  Pain assessment and management  
Elizabeth Forster and Catherine Kotzur  
Introduction  
Understanding pain  
Pain assessment  
Treatment of pain  
Paediatric patient-controlled analgesia  
Points for parent teaching regarding patient-controlled analgesia  
Epidural and regional analgesia  
Non-pharmacological pain-relief methods  
Summary  
Review questions  
Research topic  
Further reading  
References
Chapter 9  Neurological nursing skills  
Elizabeth Forster and Meg Caughlan  
Introduction  
Managing paediatric seizures  
Ventriculoperitoneal shunts  
Invasive intracranial pressure monitoring  
Nursing care of children with an external ventricular drain  
Summary  
Review questions  
Research topic  
Further reading

Chapter 10  Respiratory nursing skills  
Elizabeth Forster and Loretta Scaini-Clarke  
Introduction  
Oxygen administration  
Suctioning  
Tracheostomy care  
Chest drains  
Summary  
Review questions  
Research topic  
Further reading  
References  

Chapter 11  Cardiovascular nursing skills  
Elizabeth Forster, Ruth McCaffery and Deborah Pegg  
Introduction  
Background: Paediatric heart disease in Australia  
Performing a paediatric ECG  
Cardioversion and defibrillation  
Cardiac pacing  
Post-operative nursing skills following paediatric cardiac surgery  
Management of chronic heart failure in children  
Summary  
Review questions  
Research topic  
Further reading  
References
Chapter 12  Supporting breastfeeding
Elizabeth Forster and Bridget Roache

Introduction 234
Global perspectives on breastfeeding 234
Breast anatomy and the physiology of milk production 235
Infant oral development and suckling mechanisms 239
Strategies to promote breastfeeding 241
Challenges to breastfeeding 243
Summary 250
Review questions 250
Research topic 251
Further reading 251
References 251

Chapter 13  Fluid balance and nutrition
Nicola Brown and Janet Green

Introduction 254
Differences in the fluid balance and nutrition of infants and children 254
Principles of intravenous therapy 255
Central intravenous therapy 260
Enteral feeding 263
Insulin therapies for children with type 1 diabetes 268
Summary 272
Review questions 272
Research topic 272
Further reading 272
References 273

Chapter 14  Elimination
Ibi Patane and Elizabeth Forster

Introduction 276
Measurement of output in the paediatric patient 276
Collection of urinary specimens in the paediatric patient 277
Toileting issues 279
Paediatric stoma care 288
Summary 291
Review questions 291
Research topic 292
Further reading 292
References 292
