

Preface Preface	X
1 Australia's children and young people Donna Waters	1
Introduction	2
Australia's children and young people	3
The health of Australia's children and young people	7
Emerging health priorities	14
Applying new knowledge to practice	18
Summary	20
Learning activities	20
Further reading	21
References	21
2 Child rights in Australia Jennifer Fraser and Helen Stasa	24
Introduction	25
International legislation	25
Australian legislation	27
Practice implications	28
Priorities in relation to children's rights and child-protection legislation	31
Summary	35
Learning activities	35
Further reading	35
References	36
3 Family and community	38
Ibi Patane and Elizabeth Forster	
Introduction	39
Families in contemporary Australian society	39
The Family Partnership Model	39
Family-centred care	40
Family assessment	41
Aboriginal and Torres Strait Islander family considerations	49
Cultural safety	50

Summary	5
Learning activities	5
Further reading	5′
References	5
4 Psychosocial development and response to illness Jennifer Fraser and Robyn Rosina	55
Introduction	56
The psychosocial development of children and young people experiencing disruptions to health	56
Trust versus mistrust: Infancy (first year of life) and the sick infant	57
Autonomy versus shame and doubt: Infancy (second year of life) and	
the sick toddler	60
Initiative versus guilt: Early childhood – the preschool years (3–5 years)	6
Industry versus inferiority: Middle and late childhood (infants and primary	
school – 6 years to puberty)	64
Identity versus identity confusion: Adolescence (10–20 years)	68
Intimacy versus isolation: Early adulthood (twenties and thirties) and	7
the sick young adult Summary	7 7!
Learning activities	7:
Further reading	7.

Introduction What is research?	80
What is research? What is evidence-based practice?	82
Researching with children and young people	86
Human research and ethics	86
Core principles of research ethics	88
Justice in paediatric research	90
Research monitoring and participation	94
Applying new knowledge to practice	98
Summary	99
Learning activity	99
Further reading	100
Websites	100
References	10°
6 Recognising and responding to the sick child Elizabeth Forster and Loretta Scaini-Clarke	104
Introduction	10
Structured assessment of the paediatric patient	106
The Paediatric Assessment Triangle	107

	Contents
The Primary Assessment Framework	108
Paediatric neurological assessment tools	117
Responding to the sick child	119
Paediatric basic and advanced life support	123
Parental presence during resuscitation	124
Summary	126
Learning activity	126
Further reading	127
References	128
7 Mental health and illness in childhood and adolescence Jennifer Fraser, Lindsay Smith and Julia Taylor	130
Introduction	131
Mental health problems and mental disorders	131
What mental disorders affect Australian children?	132
Attention Deficit Hyperactivity Disorder	133
Autism Spectrum Disorder	135
Externalising disorders: Conduct disorders	137
Risk and protective factors	138
Internalising disorders: Anxiety and depression	139
Promoting mental health in children and young people	140
Eating disorders	146
Ten practical strategies for promoting child and adolescent mental health	147
Summary	150
Learning activity	150
Further reading	150
References	150
8 Evidence-based nursing assessments and interventions:	
The acutely ill child Nicola Brown and Robyn Galway	154
Introduction	155
Key nursing considerations for the acutely unwell child	155
Dehydration	157
Intravenous therapy	158
Oxygen therapy	160
Pain assessment	161
Pain management	163
Common acute illnesses in childhood	164
Rashes in childhood	170
Meningococcal disease	170
Parvovirus (fifth disease)	171
Atopic dermatitis (eczema)	171
Hand, foot and mouth disease	171
Anaphylaxis	171

Summary	Infantile hypertrophic pyloric stenosis	172
Further reading 173 174 174 175 174 175	Summary	173
References 172 9 Evidence-based nursing assessments and interventions: The acutely ill young person Nicola Brown and Nerralie Shaw Introduction Key issues for young people during hospitalisation Introduction Learning pativities Pre-operative care Alcohol poisoning Summary Learning activities Further reading References 195 Donna Waters and Helen Stasa Introduction Chapital, chromosomal and genetic disorders Transition to adult care Summary Learning activities Further reading References 11 Evidence-based care of children with complex medical needs Nicola Brown Introduction Types of conditions associated with complex medical needs Nursing assessment and interventions Summary	Learning activities	173
