While the advice and information in this book is believed to be true and accurate, neither the authors nor the publisher can accept any legal responsibility or liability for any loss or damage arising from actions or decisions based in this book. The ultimate responsibility for the treatment of patients and the interpretation lies with the medical practitioner. The opinions expressed are those of the authors and the inclusion in this book of information relating to a particular product, method or technique does not amount to an endorsement of its value or quality, or of the claims made by its manufacturer. Every effort has been made to check drug dosages; however, it is still possible that errors have occurred. Furthermore, dosage schedules are constantly being revised and new side-effects recognised. For these reasons, the medical practitioner is strongly urged to consult the drug companies' printed instructions before administering any of the drugs mentioned in this book.

Apart from any fair dealing for the purposes of research or private study, or criticism or review, as permitted under the UK Copyright Designs and Patents Act 1988, this publication may not be reproduced, stored, or transmitted, in any form or by any means, without the prior permission in writing of the publishers, or in the case of reprographic reproduction only in accordance with the terms of the licences issued by the appropriate Reproduction Rights Organisations outside the UK. Enquiries concerning reproduction outside the terms stated here should be sent to the publishers at the London address printed above.

The rights of Nigel Kirkham and Neil Shepherd to be identified as editors of this work have been asserted by them in accordance with the Copyright Designs and Patents Act 1988.

The publishers makes no representation, express or implied, with regard to the accuracy of the information contained in this book and cannot accept any legal responsibility or liability for any errors or omissions that may be made.
