Every effort has been made in preparing this book to provide accurate and up-to-date information that is in accord with accepted
standards and practice at the time of publication. Although case histories are drawn from actual cases, every effort has been made to
disguise the identities of the individuals involved. Nevertheless, the authors, editors, and publishers can make no warranties that the
information contained herein is totally free from error, not least because clinical standards are constantly changing through research
and regulation. The authors, editors, and publishers therefore disclaim all liability for direct or consequential damages resulting from
the use of material contained in this book. Readers are strongly advised to pay careful attention to information provided by the
manufacturer of any drugs or equipment that they plan to use.
