Every effort has been made in preparing this book to provide accurate and
 up-to-date information that is in accord with accepted standards and practice
 at the time of publication. Although case histories are drawn from actual
 cases, every effort has been made to disguise the identities of the individuals
 involved. Nevertheless, the authors, editors, and publishers can make no
 warranties that the information contained herein is totally free from error,
 not least because clinical standards are constantly changing through research
 and regulation. The authors, editors, and publishers therefore disclaim all
 liability for direct or consequential damages resulting from the use of
 material contained in this book. Readers are strongly advised to pay careful
 attention to information provided by the manufacturer of any drugs or
 equipment that they plan to use.
