Every effort has been made in preparing this book to provide accurate and
up-to-date information that is in accord with accepted standards and practice
at the time of publication. Although case histories are drawn from actual cases,
every effort has been made to disguise the identities of the individuals involved.
Nevertheless, the authors, editors, and publishers can make no warranties that
the information contained herein is totally free from error, not least because
clinical standards are constantly changing through research and regulation.
The authors, editors, and publishers therefore disclaim all liability for direct or
consequential damages resulting from the use of material contained in this book.
Readers are strongly advised to pay careful attention to information provided by
